We would love to hear
from you!

The 2026 Heli Hiking season has begun — and we are open!

Our 2026 [Heli Hiking](#) season has begun, the alpine is calling, and we are ready to help make our adventure yours. If you have been dreaming about wildflowers, glaciers, ridgelines, and unforgettable mountain views, now is the time to join us.

A new logo, a fresh summer website, and a familiar passion for adventure

A big shout-out to [Kootenay.design](#) for the creativity behind our new summer website. Our winter site is in the works too, bringing us one step closer to powder season. We have also added a [Review](#) page where guests can share trip memories and help future adventurers imagine what is possible.

Footwear for happy feet in the alpine

A great day in the mountains starts with great footwear. Choose boots with excellent ankle support and a solid platform for hiking, trekking, and moving confidently through alpine terrain. Similar styles to the [La Sportiva Trango TRK GTX](#) or [Trango Tower GTX](#) will help keep your feet comfortable all day.

Glacier Trekking

[Glacier trekking](#) is one of our most requested adventures — and for good reason. Step onto ancient ice, feel the scale of the mountains, and experience a day you will talk about long after you return home.

Heli Hiking in the Gold Range

We are beyond excited to [hike](#) through wildflower meadows, alpine ridges, and quiet basins with our guests in the Gold Range. These are the days we love most: big views, peaceful alpine energy, and stories worth bringing home.

P.S.

Your last three vacation photos probably looked a lot like everyone else's.

Let's change that. [Book](#) your Heli Canada Adventure and come home with a story worth sharing.
